

# SESAT

## Integrated Library Platform for Enterprise

[WWW.KNOLSPHERE.COM](http://WWW.KNOLSPHERE.COM)

SESAT is full featured integrated library platform with real support of Web 2.0 Technologies. Born for Enterprise, supporting multi-libraries with multiple access in different locations from one browser window, reduce the time spent on routine tasks

With featured MARC Smart Editor, Cataloging became ever easier, supporting all MARC tags, sub-fields and indicators, build all relations to related authorities data with auto smart linking utility while you just type

The screenshot displays the 'Editing [100] Main Entry-Personal Name' form. It includes fields for 'Indicator 1: Type of personal name entry element' (set to 'Surname - [1]') and 'Indicator 2: Undefined'. Below these is a table for 'Personal name' with columns for 'a' (name), 'q' (fuller form), and 'd' (dates associated). The table contains entries for 'Hāshim, Ahmad 'Umar.', 'Nashashibi, Karim A.', 'Hansen, Bent, 1920-', and 'Zohary, Daniel.'. At the bottom are 'OK', 'Cancel', and 'Help' buttons.

Supports open standards and integrated to the world libraries' services

**OCLC™**  
The world's libraries.  
Connected.

**LIBRARY OF  
CONGRESS**

Unified cataloging  
repository
